

## 2006 Ford F350 Super Duty 6.0L Power Stroke Diesel

AMSOIL Dual Remote By-Pass Filter System  
Submitted by Justin Hancock

I used the BMK-12 Remote By-Pass Filter system with the new AMSOIL Aluminum Billet caps for the 6.0L Power Stroke diesel. I mounted the filters under the passenger side of the truck on the frame rail. I used two six-foot Nos-4 size hose because it holds up under pressure and came with the fittings already on the ends of the hose. I used the stock mounting brackets that came with the kit to mount it to the frame rail.
